

IN THE CLAIMS:

1. (Currently Amended) A method for creating a presentation on a computer system, comprising the steps of:
 - (a) receiving indicia representative of a goal and presenting the goal on a display;
 - (b) integrating examples into the presentation to provide assistance with achieving the goal;
 - (c) monitoring progress of a student toward the goal and providing feedback that further assists the student in accomplishing the goal; and
 - (d) providing a dynamic toolbar on the display to assist the student with achieving the goal.
2. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar is instantiated from information in a database.
3. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein credit processing material is integrated into the presentation.
4. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar contains utilities that are integrated into the presentation.
5. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar is instantiated by a message from the presentation to a database object containing information indicative of a ~~the~~ current status of the presentation.
6. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar contains polymorphic logic that is dynamically instantiated based on characteristics of the presentation when the toolbar is instantiated.
7. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar includes linkages to an ~~the~~ Internet.

8. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar includes an interface to perform electronic mail management.
9. (Currently amended) The A method for creating the a presentation as recited in claim 1, wherein the dynamic toolbar includes an interface that supports ~~facilitates~~ telephony functions from the presentation.
10. (Currently Amended) An apparatus that creates a presentation, comprising:
- (a) a processor;
 - (b) a memory that stores information under ~~the~~ control of the processor;
 - (c) logic that integrates examples into the presentation to provide assistance with achieving the goal;
 - (d) logic that monitors progress of a student toward the goal and provides feedback that further provides the student assistance in accomplishing the goal; and
 - (e) logic that presents a dynamic toolbar on the display to assist the student with achieving the goal.
11. (Currently Amended) The ~~An~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar is instantiated from information in a database.
12. (Currently Amended) The ~~An~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar is context-sensitive to the presentation.
13. (Currently Amended) The ~~An~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar contains utilities that are integrated into the presentation.
14. (Currently Amended) The ~~An~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar is instantiated by a message from the presentation to a database object containing information indicative of a ~~the~~ current status of the presentation.

15. (Currently Amended) The ~~A~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar contains polymorphic logic that is dynamically instantiated based on characteristics of the presentation when the toolbar is instantiated.

16. (Currently Amended) The ~~A~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar includes linkages to an ~~the~~ Internet.

17. (Currently Amended) The ~~A~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar includes an interface to perform electronic mail management.

18. (Currently Amended) The ~~A~~ apparatus that creates the a presentation as recited in claim 10, wherein the dynamic toolbar includes an interface that supports ~~facilitates~~ telephony functions from the presentation.
